Do You Dream In Stereo?

Dreaming of a new home theater or music in every room? Perhaps you want to play keep up with the Jetsons and automate your entire home?

Your dream can be a reality.

HOME THEATER

We approach each home theater as a specialized venue, precisely designed to meet your aesthetic and practical needs. High performance components enable the subtlest cues to come through vividly and distortion free.

Each system is custom designed to suit the unique requirements of your family, home, and lifestyle.

We can work directly with your architect, builder, and designer.

DISTRIBUTED AUDIO

Staying home has never sounded better. Ahead Stereo can provide music in every room of your home. Flush-mounted speakers are virtually invisible and in-wall control panels offer one touch operation from any room in the house.

Whether you're entertaining or relaxing, music throughout the home has never been simpler or more elegant.

Sleek plasma panels with surround sound and music wherever you like are just some of the possibilities.

HOME INTEGRATION

If you are looking for more than a house full of the latest high tech gear, we can help. Ahead Stereo can tie it all together in a completely integrated solution. You can control audio, video, lighting, HVAC, and security, with just one touch. We make

advanced home technology practical, reliable, and easy to use.

When the time comes to turn your dream into a reality, call us or visit our showroom for a consultation.
